

Name: _____

Date: _____

Lesson 04.02: Investigate Change

Printable Activity: Candy Water

Candy Water

How can we change the color of solids and liquids? It is time to explore how candy can change the color of water!

I Wonder

How can I investigate ways to change solid and liquid materials?

I Predict

Complete the sentence by circling the correct word or words.

I think candies (will / will not) change the color of water.

I Need

- A trusted adult
- Two cups of warm water
- Round, circular, colorful candies
- One plate

I Explore

1. With the help of a trusted adult, set out all of your materials on a flat surface such as a table or counter.
2. Place the candies in a large circle on your plate. Make sure the candies are close together!
3. Ask a trusted adult to pour the warm water into the center of the circle of candies you created.
4. Observe what happens to the water. Draw what you observe in the "I Record" section below. Then, write your observations.
